

## Literature Ordering

Fill out the top of the form completely with Lodge name and number, the contact person, and the address to where the literature is to be sent. Make sure that the box for residential or commercial is checked. *If the literature is to be sent to the Lodge then “commercial” should be checked.*

Order only the materials, which you are going to use. If you are going to a health fair and the specific area that the fair is all about is smoking, or, steroid, or, meth, then make sure that you have the literature for that subject. *You do not have to order all of the materials at one time.* This is an expensive item for Grand Lodge to pay for. Since the literature is free, make sure that you use the literature and not store it for years and then throw it away after it gets damaged.

When the form is completed you may print it out and sent it to me via US Mail or save the .pdf document on your computer and attach it to an email to me. Remember, this form **MUST** be sent to me and **NOT** directly to the Grand Lodge.
